

Famfa Oil will be a stakeholder in Women First Women's Health & Newborn Care by the Grace Of God. The Chairperson of Women First is Madam Sharon N. Alenda. We are awarding Mrs. Folorunsho Alakija the place of another shareholder in Women First Women's Health & Newborn Care alongside our chairperson Madam Sharon N. Alenda. A Rose of Sharon ministries headed by Mrs. Folorunsho should be able to partner up with Women First to softly give health care to nursing mothers and orphaned newborns. We ask that Famfa Oil will handle all proceeds.

We look at the phases of Women's Health in Nigeria and Cameroon and we are impressed but can do a lot better. Research has shown

1. How can a woman have Evasive Clinical Healing From Excessive usage of Birth Control on the Womb and Urethra that is needed because of Heavy Bleeding.
2. Preparing Clinical Ways to Grant a Healthy Pregnancy and Baby without Postpartum
3. Why Neonatal Support is Essential in early childhood diagnosis.

Some of the many Biomedical and Educational Research Portfolios I have attained have not been mentioned.

Lastly, It was a pleasure for Sharon working with a woman like Ms. Samia Nkrumah who was the former head of state of Ghana, at one point in Africa on the great faucet of Women's Health and Childbearing. With A Deep thank you to Her Excellency Samia Yaba Nkrumah. Changing Women's lives one baby at a time by either Vaginal birth or a C section and by one breast exam at a time. Sharon was able to give Women's Health Care in Africa.
